TO: All ExpoPUL workers

I have been advised by Chinchikov of the recent events where Samkon, through its subsidiary RBE Saratov, has been trying to force us out so they can acquire our building.

The management at ExpoPUL and myself have launched a flow of countermeasures. "A Mobile Flow Will Expand Continuously."

I want to tell you all in the strongest terms that I will **NEVER** sell.

I am proud of your vigilance and determination to fight along with me. We may have a battle on our hands, but we can take strength from the far greater battle fought by our honored veterans of The Great Patriotic War, and their comrades. We will prevail. This is our Stalingrad, and it will be our Kursk.

You may know the biblical story of David & Goliath. Our slingshots are lethal.

Mike Matthews

President
